

REVEGETATION

Verdyol Biotic Earth™ (Biotic Soil Amendment)

Verdyol Biotic Earth™ was designed to achieve successful vegetation when used as a topsoil or compost alternative, or where existing soils are less than ideal.

Hydraulically applied at a rate of 3,500 lbs per acre, Verdyol Biotic Earth™ accelerates the nutrient cycling and soil building processes to establish permanent vegetation.

Verdyol Biotic Earth™ is made with sustainably harvested Canadian sphagnum peat moss, natural fibers, mycorrhizal fungi, beneficial bacteria, and natural growth stimulants to help soil come alive and allow vegetation to thrive.

42 Bags/Pallet

Verdyol Biotic Earth™ achieves 419% increase in plant mass per ASTM D 7322!

Why use Verdyol Biotic Earth™?

- ✓ Increases soil water holding capacity
- ✓ Reintroduces microbial soil life – the real difference between dirt and soil!
- ✓ Weed and seed free
- ✓ Longest successful track record in the industry
- ✓ Same application rate regardless of slope and organic matter content
- ✓ Less expensive than using topsoil, compost or another biotic soil amendment
- ✓ Faster project closeout
